Currency Board Compliance as of 29th February 2020

Explanations

The compliance with the rule on issuing convertible mark (KM) is published in accordance with the requirements of the Articles 31 and 35 in the Law on the Central Bank of Bosnia and Herzegovina ("the Law on the Central Bank") in order to provide information on the operations of the Central Bank of Bosnia and Herzegovina ("the Central Bank") pursuant to the Currency Board arrangement.

As of 29th February 2020, the Central Bank met all requirements of the Currency Board as mentioned in the Article 31 of the Law on the Central Bank.

Net foreign currency reserves of the Central Bank, calculated as a difference between gross foreign currency reserves and liabilities to non-residents, are in the amount of KM 12,462,538 thousand and exceed monetary liabilities by KM 882,974 thousand. This is presented in the item **Net foreign assets**.

Gross foreign currency reserves of the Central Bank are invested mainly in debt instruments and deposits with foreign banks, with the breakdown of Euro and other currencies holdings.

Monetary liabilities consist of the Central Bank's liabilities for currency in circulation (KM 5,217,481 thousand), deposits from banks (KM 5,550,295 thousand) and deposits from the Government and other public depositors (KM 811,788 thousand).

Liabilities to non-residents represent, to the largest extent, the IMF accounts No. 1 and No. 2, held by the Central Bank, being a depositary for the Bosnia and Herzegovina membership with the International Monetary Fund.
