INTRODUCTORY SUMMARY

On the annual basis, in the period of the first eight months, the growth of the general price level was mainly determined by the growth of prices in the sectors related to transport, alcohol beverages and tobacco and utility costs (Graph 1). Inflation pressures in the euro area were also present, particularly due to the growth of oil prices (Graph 2). In August, a decline of industrial production was recorded, as a result of a significant decrease of the production in manufacturing (Graph 3). At the annual level, the growth trend of the number of employees was continued (Graph 4) and also the total turnover in the internal payment system (Graph 5). At the same time, the loans to households recorded higher growth rates than the loans to non-financial companies (Graph 6). The total deposits and also the net foreign assets recorded an increase (Graphs 7 and 8). Due to seasonal effect, the demand for transferable deposits in the local currency and cash outside banks determined the money supply trend (Graph 9). The foreign exchange reserves recorded an increase due to a positive balance of KM purchase and sale (Graph 10) recorded with commercial banks and government depositors. The reserve account balance continued to increase (Graph 11). At the annual level, liabilities of the general government towards banks recorded a growth on the basis of securities, and also on the basis of loans (Graph 12). The decline of revenues from indirect taxes was under the impact of decreased revenues from VAT and excise duties (Graphs 13 and 14). The appreciation trend of NEER was continued, mainly as the result of the nominal appreciation of KM against Turkish lira and US dollar (Graph 15). The decrease of the trade deficit was a feature of the foreign trade in the first eight months (Graph 16). At the same time, the strongest deepening of trade deficit was recorded in the exchange with Russia and China (Graph 17). The decline of market capitalization of companies on BLSE was continued (Graph 18).

G01: Annual Change of Consumer Prices in the First Eight Months

Source: BHAS

Observing the first eight month period on the annual basis, the growth of the general price level was mainly determined by the growth of prices in the sectors related to transport (the annual rate of the price growth 7.5%), alcohol beverages and tobacco (6.9%), utility costs (2.2%), and food and beverages (0.9%). At the same time, the strongest decline of consumer prices in the same period was recorded in the sectors of clothes and footwear (-9.9%), and communication (-1.6%).

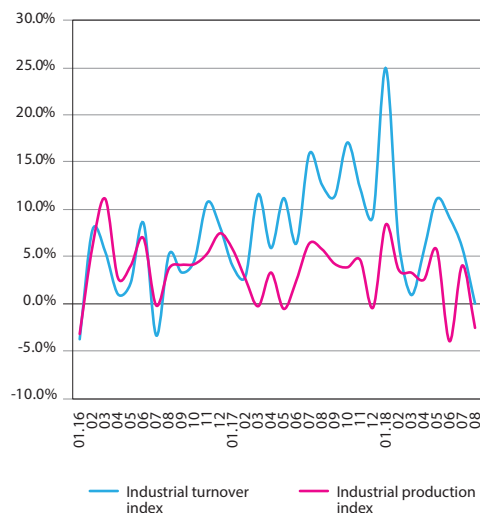

G02: Inflation and Unemployment in the Euro Area

Source: ECB

Since May 2018, inflation pressures in the euro area grew stronger due to the growth of oil prices. In August 2018, inflation amounted to 2.1% which exceeded the target inflation level of the euro area defined as "close, but below 2%". The unemployment rate in the euro area continued to decline amounting to 8.1% in August 2018, but still staying significantly higher than the unemployment rate in the USA. Such dynamics in the monetary sector and the market of labour increased the pressure on the ECB to normalize the monetary policy, i.e. increase interest rates, which will also affect BH interest rates.

G03: The Annual Growth Rates of Industrial Turnover and Industrial Production

Source: BHAS

Industrial turnover index indicates that the value of industrial turnover follows a similar trend as the industrial production index, with a visible short time lag of industrial production in relation to sale. The overall sale in the domestic market in eight months of the current year recorded annual growth (4.7%), however a stronger growth was recorded in sale in a foreign market (10.1%). Observing the structure of the annual growth rate of industrial production in August, a growth was recorded in the industrial area of production and distribution of electric energy and gas (9.8%), while a decline was recorded in manufacturing industry (-6.0%) and mining (-3.0%).

G04: Trends in Labour Market

Source: BHAS

In August, the downward trend of the number of the unemployed was continued which was particularly expressed in recent years as a result of increased employment and negative demographic trends. At the annual level, the number of the unemployed was decreased by 36,510 persons or 7.5%. At the same time, the number of employees increased by 15,711 persons or 2.0%. At the annual level, the highest contribution to the employment growth came from manufacturing industry (3.0%) and trade (2.5%), while on the other hand, a decline of employment was recorded in mining (-3.6%), and professional, scientific and technical activities (-1.4%).

G05: Internal Payment System

Source: CBBH

In August, in internal payment system, the total turnover amounted to KM 9.22 billion, which was reached in the total of 3,528,439 transactions. The number of transactions in August decreased compared to the previous month (-5.45%), and compared to the same month of the previous year (-0.37%). However, although the number of transactions decreased, the total turnover increased by 2.8% (m/m-1), and 2.38% (m/m-12). Compared to August of the previous year, turnover levels in RTGS and gyro clearing increased at approximately the same rate, but at the monthly level, these trends differed significantly. The turnover in RTGS increased by 3.64%, and in gyro clearing it decreased by 1.22% (m/m-1).

G06: Loans, Annual Growth Rates

Source: Tables 12 and 13

The total loans extended in BH in the end of August amounted to KM 19.26 billion, which represents an increase of 6.8% at the annual level. A stronger growth of loans to households compared to those to companies was continued for the fifth successive month and the difference in the annual rates of growth of these two sectors amounted to 2.2 percentage points in August.

G07: Deposits, Monthly Changes

Source: Tables 10 and 11

The total deposits in BH banking sector exceeded the amount of KM 21 billion in August of the current year. The increase of the government sector deposits had a significant impact on the increase of the total deposits in the observed month, 35.6% of the overall deposit increase.

G08: Foreign Assets and Foreign Liabilities of Commercial Banks

Source: Table 07

Net foreign assets increased by KM 153.1 million at the monthly level resulting from increase of foreign assets and decrease of foreign liabilities. Foreign assets increased mainly due to the increase of deposits with correspondent banks, while the decrease of foreign liabilities was mainly caused by a decrease of non-residents' deposits.

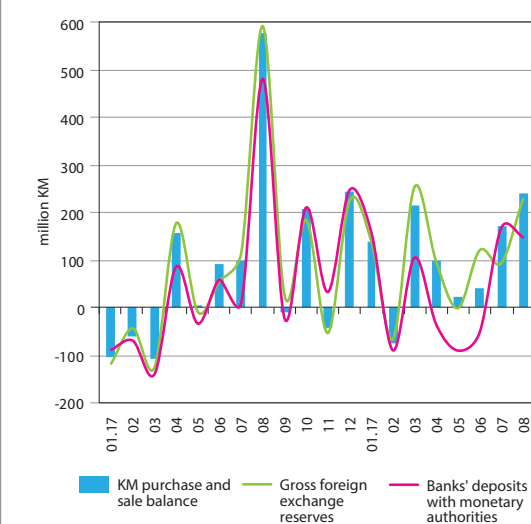

G09: Monthly Changes of Components M1 and Broad Money Supply

Source: Table 04

Seasonal demand for liquid assets, deposits in the local currency and cash outside banks, almost entirely determined the trend of money supply in August. The impact of quasi money components was almost negligible. Such impact of monetary aggregate M1 on the trend of the overall money supply is usually present in summer, due to vacation season.

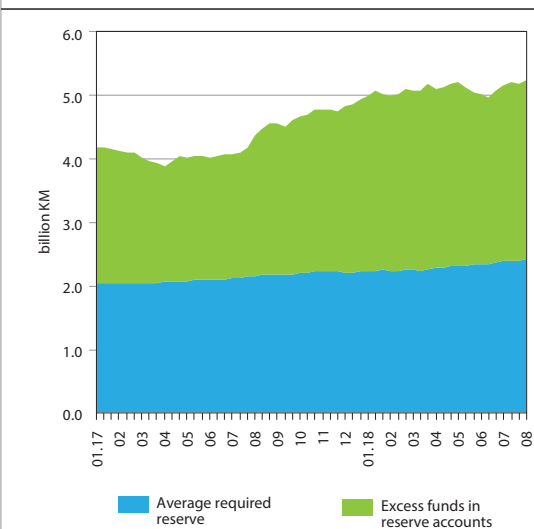

G10: Monthly Changes of Gross Foreign Exchange Reserves, Banks' Deposits with Monetary Authorities and Monthly Values of Purchase and Sale Balance

Source: Tables 02, 03 and 04

The CBBH foreign exchange reserves recorded a monthly increase in the amount of KM 229.4 million, due to a positive balance of KM purchase and sale recorded with commercial banks and government depositors with the CBBH. The foreign exchange reserves and banks' deposits with the CBBH recorded a balanced trend in the first eight months, with the exception in June when a significant deviation was recorded.

G11: Reserve Account Balance

Source: Table 18

The reserve account balance continued to increase. So, the average required reserve balance in August amounted to KM 2.41 billion, while the average excess funds amounted to KM 2.89 billion. The average required reserve growth trend was evident due to the domestic sector deposit growth.

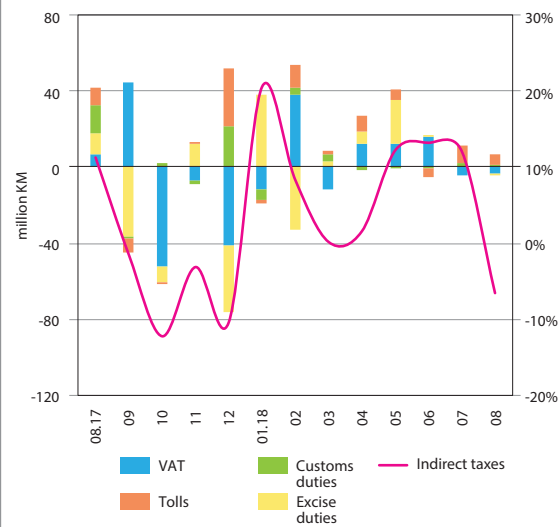

G12: General Government Debt with Commercial Banks, Annual Changes

Source: CBBH

In August, the growth of liabilities at the annual level was recorded both based on the issued securities of the general government and also on the basis of loans. In the end of August, the total debt of the general government sector on the mentioned two bases was KM 2.36 billion, which was the annual growth of liabilities in the amount of KM 136.2 million or 6.1%. The banking sector exposure to the general government sector in the end of August was 7.9% of the total banking sector assets.

G13: Monthly Changes of Indirect Taxes

Source: Indirect Taxation Authority

In August, there was a monthly decline of revenues from indirect taxes, mainly as a result of the decrease of VAT and excise duties. The monthly decline of indirect taxes amounted to KM 6.5 million. Only tolls, and to a lower extent, customs duties, recorded monthly increases. The decrease of VAT resulted from significant reimbursements during this month. The total collected revenues from indirect taxes in the first eight months amounted to KM 4.02 billion and compared to the previous year, the growth was 7.1%

G14: Annual Growth Rate of Excise Duties

Source: BLSE and SASE

During the first eight months, a slightly lower collection of revenues from excise duties was recorded compared to the same period of the previous year. In the mentioned period, KM 970.6 million was collected on the basis of excise duties, representing a decline of KM 30.6 million (3.9%) compared to the same period of the previous year. A slightly lower collection of excise duties in the current month resulted from lower collection of excise duties on domestic tobacco products, while at the same time, excise duties on imported tobacco products recorded a declining trend.

G15: Nominal and Real Effective Exchange Rates of KM (NEER and REER)

Source: CBBH

In August, the appreciation trend of NEER continued, brought about mainly by the nominal appreciation of KM against Turkish lira and US dollar. In August, NEER at the annual level appreciated by 2.23 pp. The real effective exchange rate of KM (measured by consumer prices) at the annual level appreciated by 1.23 pp, while the REER measured by producer prices appreciated by 1.45 pp.

G16: Decrease/Deepening of Trade Deficit according to Product Groups

Source: BHAS

The foreign trade in the first eight months was characterized at the annual level by a decrease of trade deficit by KM 229.5 million (4.9%). The most significant product groups creating trade deficit, gave a positive contribution to the trade deficit decrease in the first eight months, where the most significant decrease of the deficit was observed in the mineral origin product group.

G17: Decrease/Deepening of Trade Deficit by the Main Trade Partners

Source: BHAS

The most significant deepening of trade deficit in the first eight months (compared to the same period of the previous year), observed by trade partners, was recorded in the exchange with Russia and China. In the first eight months, imports from Russia increased at the annual level by 28.6%. On the other hand, the most significant improvement of trade deficit was recorded in the exchange with Croatia and Serbia.

G18: Stock Exchange Indices in Republika Srpska

Source: BLSE

In August, the decrease of market capitalization of companies from electric energy sector of Republika Srpska was continued. The value of ERS 10 compared to the previous month decreased by 3.2%, and the decline compared to August 2017 was even 19%. BIRS (stock exchange index of Republika Srpska) recovered compared to its low value from July 2018 and the growth was 4.5%. At the annual level, BIRS decreased by 4.3%. ORS (Index of bonds of Republika Srpska) did not significantly change at the monthly level (0.4%), and its value compared to August 2017 was higher by 8.7%, which implies the confidence of investors in the sustainability of public debt of Republika Srpska in a short period.

Notes applicable for tables 4, 5, 7, 8, 9, 10, 11, 12, 13

-The revised data for the period January 2006 – November 2015 are based on the active sub-balance of the banks with majority state owned capital from the Federation of BH, with the passive sub-balance excluded. Through such supplement of statistics, the users are provided with higher analytical usefulness of data and objective indicators on the current operations of banks in BH. Passive sub-balance includes the liabilities based on foreign loans and old foreign exchange savings of citizens until 31 March 1992 and it does not reflect the current operations of the bank, so this sub-balance in the privatization process will be taken over by the Ministry of Finance of FBH according to the Law on Initial Balance Sheets of Banks and the Law on Privatization, as it has been done for the previously privatized banks. The performed revision mainly influenced the decrease of loans to public companies in a foreign currency, decrease of foreign liabilities, decrease of other items of assets and liabilities on the basis of old foreign exchange savings, and in considerably lower amounts, on items of loans to the Entity Government, fixed assets, non-residents' deposits, shares and capital.

The data on the „complete“ balance sheet, with the included passive sub-balance, are still available at: http://statistics.cbbh.ba:4444/Panorama/novaview/SimpleLogin_bs.aspx

- In November 2014, two banks have realized the sale and transfer of part of the loan portfolio which resulted with increase in reserves with monetary authorities in the amount of 64 million KM and a decrease in the following items: claims of non-financial private enterprises 260 million KM, foreign liabilities 101 million KM and other items (net) 95 million KM.

-Due to the application of International Accounting Standards (IAS) and the International Financial Reporting Standards applied in BH Federation banks and the transfer of money flows in December 2011 data, the following changes have occurred at the assets side: decrease of loans by KM 155 million, an increase in other assets by KM 10 million, at the liabilities side: decrease of liabilities to non-residents in the amount of KM624 million, an increase in loan loss provisions by KM 472 million and other liabilities increased by KM 7 million.

- In February 2011, one bank from BH Federation reclassified deposits in the amount of around KM 80 million, from the deposits of public companies to the Entities' governments deposits, in line with the IMF recommendations.

- By order of the FBH Banking Agency, in June 2010, one bank made a reclassification of about KM 300 million of claims based on securities on domestic institutional sectors to the claims on non-residents. In December 2010, the same bank made this reclassification, retroactively, in the respective amounts for the period from August 2009 when the error occurred, until May 2010. The above reclassification was reflected in the increase in foreign assets and decrease in other items net.

- One bank from FBH made a reclassification of financial instruments in the foreign assets amounting to about KM 40 million for the period January - August 2010. Claims on non-residents based on loans were reclassified in claims on non-residents on the basis of securities, which resulted in changes in the short- term and long- term foreign assets.

- By order of the Banking Agency of Republika Srpska one bank made a reclassification of financial instruments on the liabilities side, for the period of September 2008 - November 2010, i.e.. the decrease in time and savings deposits of non-bank financial institutions and government sector, and the increase in loans from the same sectors, respectively, in the appropriate amounts, by months, ranging from 50 - 150 million KM.

- In accordance with new regulations of the RS Banking Agency, published in the Official Gazette of RS, no.136/10, which has regulated a new manner of recording receivables classified in category "E", accounting and bookkeeping of interest on non-performing assets and calculation of general and special provisions, RS banks, in the data for December 2010, implemented the mentioned regulations, by transferring these items from off-balance records into balance sheet. The correction was reflected on the assets side, as increase of loans in the amount of about KM 144 million, and increase of due interest in the amount of KM 36 million, and on the liabilities side, as increase in provisions for loan losses amounting to about KM 180 million within the capital account.

By order of the Banking Agency of Republika Srpska, one bank made a reclassification of financial instruments on the liabilities side, for the period of September 2008 - November 2010, i.e. decrease in time and savings deposits of non-bank financial institutions and government sector, and the increase in loans from the same sectors, respectively in the appropriate amounts, by months, ranging from KM 50 - 150 million.

According to new regulations of the RS Banking Agency, published in the Official Gazette of RS no.136/10, which have defined a new way of recording claims classified in category "E", accounting and recording of interest on non-performing assets and calculation of general and special provisions, RS banks, in the data for December 2010 implemented the mentioned regulations, by transferring these items from off-balance records into balance sheet. The correction was reflected on the assets side, as increase of loans in the amount of KM 144 million, and increase of due interest in the amount of KM 36 million, and on the liabilities side, as increase in provisions for loan losses amounting to KM 180 million within the capital account.

Monetary data have been updated according to the IMF methodology (Monetary and Financial Statistics Manual, 2000) from January 2006.

Notes:

Gross foreign reserves consist of balance sheet positions of short-term foreign assets of the CBBH (gold, CBBH SDR holdings, foreign exchange in the CBBH vault, transferable deposits in foreign currency with non-resident banks and other) and investment in securities according to the CBBH Investment Committee Decision from July 2006. Net foreign reserves represent a difference between gross foreign reserves and liabilities to non-residents. Monetary liabilities of the CBBH include money outside monetary authorities and deposits of residents with monetary authorities. Net foreign assets of CBBH represent a difference between net foreign exchange reserves and monetary liabilities of the CBBH.

Since 01 July 2017, the status change of the merger of subsidiary company UniCredit Leasing d.o.o. Sarajevo to the company Unicredit Bank d.d. Mostar has taken place. Accordingly, Unicredit Leasing d.o.o. Sarajevo has stopped existing as of 30 June 2017 and the data on the merged company are presented within the report on UniCredit Bank d.d. Mostar, starting from the report for July 2017.

Monetary data have been updated according to the IMF methodology (Monetary and Financial Statistics Manual, 2000) from January 2006.

Notes:

The currency outside monetary authorities is taken from the CBBH Balance Sheet and it consists of cash outside the central bank (monetary authorities). Deposits of commercial banks are commercial banks' funds in accounts at the CBBH. Transferable deposits of other domestic sectors with monetary authorities are deposits of other domestic sectors (except central government deposits). The central government consists of BH Institutions, Entity governments, Entity Social Security Funds and those of Brčko District. Social security funds on Entity level (from Federation of BH: Pension Fund, Health Care Fund of FBH, Employment Fund of FBH, and from Republika Srpska: Pension and Disability Insurance Fund of RS, Health Care Fund of RS, Employment Fund of RS and Fund for Child Protection of RS) are classified on the central government level.

Cash outside banks is taken over from the CBBH Balance Sheet (Table 6) and represents cash in circulation outside the central bank (monetary authorities) and cash outside commercial banks. Transferable deposits in the domestic currency are taken from the Monetary Survey (Table 5). They consist of deposits of non-central government (cantons and municipalities), deposits of public and private companies, other financial institutions and deposits of other domestic sectors (households, non-profit institutions and other unclassified sectors). Other deposits in the domestic currency, transferable and other deposits in foreign currency are taken over from the Monetary Survey (Table 5). They consist of deposits of non-central government (cantons and municipalities), deposits of public and private companies, other financial institutions and deposits of other domestic sectors (households, non-profit institutions and other unclassified sectors).

Reserve money (primary money or monetary base) is entirely taken from the CBBH Balance Sheet (Table 6). It consists of cash outside monetary authorities, deposits of commercial banks and deposits of other domestic sectors (except for deposits of the central government) with monetary authorities. According to national definition, money supply comprises all transferable and other deposits of domestic nonbank and nongovernment sectors, as well deposits of local government in domestic and foreign currency. Deposits of entity Social Security Funds are included into the central government on Entity level and by that they are excluded from money supply or monetary aggregates. Monetary aggregate M1 comprises cash outside banks and transferable deposits in domestic currency of all domestic sectors (except for deposits of the central government). Monetary aggregate QM is defined in the same way as the corresponding item in the Monetary Survey (Table 5). It consists of other deposits in domestic currency, transferable and other deposits in a foreign currency of all domestic sectors (except for deposits of the central government). Money supply M2 comprises monetary aggregates, M1 and QM.

Revised data for July 2018.

Since 01 July 2017, the status change of the merger of subsidiary company UniCredit Leasing d.o.o. Sarajevo to the company Unicredit Bank d.d. Mostar has taken place. Accordingly, Unicredit Leasing d.o.o. Sarajevo has stopped existing as of 30 June 2017 and the data on the merged company are presented within the report on UniCredit Bank d.d. Mostar, starting from the report for July 2017.

Monetary data updated according to the MMF methodology (Monetary and Financial Statistics Manual, 2000), from January 2006

Notes:

The Monetary Survey presents the consolidated data from the Balance Sheet of CBBH - monetary authorities (Table 6) and the Consolidated Balance Sheet of Commercial Banks of Bosnia and Herzegovina (Table 7). Foreign assets (net) represent the difference between total foreign assets of the CBBH - monetary authorities and commercial banks of BH and total foreign liabilities of the CBBH - monetary authorities and commercial banks of BH. Domestic loans represent commercial banks' claims on all domestic sectors, but it should be noted that claims on central government are presented in net amounts, i.e. they are reduced by the deposits of central government with the CBBH and with BH commercial banks. The central government consists of BH Institutions, Entity governments, Entity Social Security Funds and those of Brčko District. According to new methodology, Social Security Funds are classified on the central government level as Entities' off-budget funds, which has a direct impact on the data about net claims on the central government in Monetary Survey.

Revised data for July 2018.

Since 01 July 2017, the status change of the merger of subsidiary company UniCredit Leasing d.o.o. Sarajevo to the company Unicredit Bank d.d. Mostar has taken place. Accordingly, Unicredit Leasing d.o.o. Sarajevo has stopped existing as of 30 June 2017 and the data on the merged company are presented within the report on UniCredit Bank d.d. Mostar, starting from the report for July 2017.

Monetary data have been updated according to the IMF methodology (Monetary and Financial Statistics Manual, 2000) from January 2006.

Notes:

Money M1 comprises currency outside banks, transferable deposits in the domestic currency of all domestic sectors (except for deposits of central government). Quasi money QM comprises other deposits in the domestic currency, transferable and other deposits in foreign currency of all domestic sectors (except for deposits of the central government). Money supply M2 comprises monetary aggregates, money M1 and quasi money QM. Other liabilities include securities, loans, shares and other equity and other items (net). According to a new methodology, loans are presented as separate financial instruments on the side of liabilities (with which the calculated interest is added), and also shares and other equity. Other items (net) are unallocated items of liabilities reduced by the unallocated items of assets. Other items (net) also comprise restricted deposits, counter-items of funds and government lending funds.

Monetary data have been updated according to the IMF methodology (Monetary and Financial Statistics Manual, 2000) from January 2006.

Notes:

The CBBH (monetary authorities) foreign assets comprise gold, foreign currency in CBBH vault, foreign currency deposits with foreign banks, SDR holdings, foreign securities and other. Claims on domestic sectors consist of claims on employees of CBBH for the long-term loans and claims on commercial banks on the basis of settlement accounts. Reserve money (primary money or monetary base) is comprised of cash outside monetary authorities, deposits of commercial banks and deposits of other domestic sectors (except for the central government) with monetary authorities. Cash outside banks represents cash in circulation outside the central bank (monetary authorities) and cash outside commercial banks. The CBBH foreign liabilities are comprised of short-term liabilities towards non-residents, deposits of non-residents and other short-term liabilities towards non-residents and liabilities towards the IMF (Account 1 and 2). Deposits of central government with CBBH are transferable and other deposits of BH Institutions, Entity governments, Entity social security funds and those of Brčko District in domestic currency. Shares and other equity are comprised of equity, current year result, general and special reserves and revaluation/ adjustment. Other items (net) are unallocated items of liabilities reduced by the unallocated items of assets.

Revised data for July 2018.

Since 01 July 2017, the status change of the merger of subsidiary company UniCredit Leasing d.o.o. Sarajevo to the company Unicredit Bank d.d. Mostar has taken place. Accordingly, Unicredit Leasing d.o.o. Sarajevo has stopped existing as of 30 June 2017 and the data on the merged company are presented within the report on UniCredit Bank d.d. Mostar, starting from the report for July 2017.

Monetary data have been updated according to the IMF methodology (Monetary and Financial Statistics Manual, 2000) from January 2006.

Notes:

Consolidated balance sheet of commercial banks includes consolidated balance sheets of commercial banks covered by Main Unit Sarajevo, Main Unit Mostar, Main Bank RS, Brčko District (from July 2001 until November 2002), NBRS (until December 1998) and the NBBH (until November 2002). Mutual claims and liabilities among the commercial banks have been consolidated. Banks' reserves consist of cash in the banks' vaults and banks' deposits with the Central Bank of Bosnia and Herzegovina. Foreign assets of commercial banks include: foreign currency in the vaults, transferable and other deposits with non-residents in foreign currency, loans to non-residents, securities of non-residents in foreign currency, and other claims on non-residents.

Claims on general government include claims on all levels of government: the central government (BH Institutions, Entity social security funds and Brčko District) and non-central governments (canton and municipality governments). Claims on other domestic sectors include claims on public non-financial enterprises, private non-financial enterprises, other financial institutions and claims on other domestic sectors (households, non-profit institutions and other unclassified sectors). Balance sheets of commercial banks of Federation of BH in addition to active sub-balance sheets include data from passive sub-balance sheets as well. Passive sub-balance sheets include liabilities arising from foreign loans and frozen foreign currency deposits of citizens, which occurred until 31 March 1992. These liabilities will be taken over, in the process of privatisation, by Ministry of Finance of Federation of BH in accordance with the entity Law on Opening Balance Sheets of Enterprises and Banks and Law on Privatisation.

Revised data for July 2018.

Since 01 July 2017, the status change of the merger of subsidiary company UniCredit Leasing d.o.o. Sarajevo to the company Unicredit Bank d.d. Mostar has taken place. Accordingly, Unicredit Leasing d.o.o. Sarajevo has stopped existing as of 30 June 2017 and the data on the merged company are presented within the report on UniCredit Bank d.d. Mostar, starting from the report for July 2017.

Monetary data have been updated according to the IMF methodology (Monetary and Financial Statistics Manual, 2000) from January 2006.

Notes:

Central government deposits include transferable and other deposits in domestic and foreign currency of BH Institutions, Entity governments, Entity social security funds and those of Brčko District. Transferable and other deposits of other domestic sectors in domestic and foreign currency represent banks liabilities towards non-central government (canton and municipality governments), public non-financial enterprises, private non-financial enterprises, other financial institutions and other domestic sectors (households, non-profit institutions and other unclassified sectors). Foreign liabilities of commercial banks include banks liabilities to non-residents based on transferable and other deposits, loans, securities, trade loans and advance payments and other accounts payable. According to a new methodology, loans are presented as a separate financial instrument on the side of liabilities, with which the calculated interest is added. Shares and other equity include equity, retained earnings, current year result, general and special reserves and adjustment/revaluation. Other items (net) are unallocated items of liabilities reduced by the unallocated items of assets. Restricted deposits are also included in other items (net).

Since 01 July 2017, the status change of the merger of subsidiary company UniCredit Leasing d.o.o. Sarajevo to the company Unicredit Bank d.d. Mostar has taken place. Accordingly, Unicredit Leasing d.o.o. Sarajevo has stopped existing as of 30 June 2017 and the data on the merged company are presented within the report on UniCredit Bank d.d. Mostar, starting from the report for July 2017.

Monetary data have been updated according to the IMF methodology (Monetary and Financial Statistics Manual, 2000) from January 2006.

Notes:

By order of FBA in March 2010, loans to households with currency clause with one bank were reclassified, from loans in EUR to loans in KM.

From September 2004, change in structure of loans by currency is result of implementation of recommendations of IMF Mission for monetary and financial statistics in BH from May 2004. According to that, all loans in KM which include currency clause (indexed to euro), should be classified as loans in KM (domestic currency).

Data on structure of deposits and loans by currency in Republika Srpska until September 1999 are not available, so for this period the total amount of deposits and loans in RS is included in the column Total.

Revised data for July 2018.

Monetary data have been updated according to the IMF methodology (Monetary and Financial Statistics Manual, 2000) from January 2006.

Notes:

Deposits of domestic institutional sectors represent liabilities of commercial banks towards all institutional sectors. Deposits on the BH level represent deposits with commercial banks covered by Main Unit Sarajevo, Main Unit Mostar, Main Bank RS, Brčko Branch (from July 2001 until November 2002), deposits with NBRIS (until December 1998), deposits with NBBH (until November 2002) and deposits with the Payment Bureaus Sarajevo and Mostar (until November 1999). Sight deposits represent liabilities of commercial banks related to transaction accounts and sight deposits in domestic and foreign currency.

T11: Structure of Other Deposits with Commercial Banks by Sector
- end of period, KM million -

Revised data for July 2018.

Since 01 July 2017, the status change of the merger of subsidiary company UniCredit Leasing d.o.o. Sarajevo to the company Unicredit Bank d.d. Mostar has taken place. Accordingly, Unicredit Leasing d.o.o. Sarajevo has stopped existing as of 30 June 2017 and the data on the merged company are presented within the report on UniCredit Bank d.d. Mostar, starting from the report for July 2017.

Monetary data have been updated according to the IMF methodology (Monetary and Financial Statistics Manual, 2000) from January 2006.

Notes:

Loans to domestic institutional sectors represent claims of commercial banks on all institutional sectors. Loans at the BH level include loans extended by commercial banks covered by Main Unit Sarajevo, Main Unit Mostar, Main Bank RS, Brčko Branch (from July 2001 until November 2002), loans with NBRB (until December 1998) and NBBH (until November 2002). The total of claims on all levels of government and funds (short-term and long-term) are shown in Table of short-term loans (columns 3,4,5,6,7) in total amount, because source data do not provide a maturity structure of claims for governments and funds. Short-term loans represent claims of commercial banks on all domestic institutional sectors up to one year, in domestic and foreign currency. Claims on BH Institutions have been reclassified since April 2010.

Notes:

Since 01 July 2017, the status change of the merger of subsidiary company UniCredit Leasing d.o.o. Sarajevo to the company Unicredit Bank d.d. Mostar has taken place. Accordingly, UniCredit Leasing d.o.o. Sarajevo has stopped existing as of 30 June 2017 and the data on the merged company are presented within the report on UniCredit Bank d.d. Mostar, starting from the report for July 2017.

* Interest rates in table for revolving loans and credit cards and their amounts refer to the outstanding amounts.

IRF – initial rate fixation

... insufficient data to be published

The interest rate on the revolving loans and credit cards, includes data on credit cards with loan facility. Considering that credit cards with loan facility imply an interest free deferred payment (0% ir), they are not published.

No data for interest rates on loans in foreign currency based on credit cards and overdrafts to households.

Notes:

Revised interest rates data and amounts for revolving loans and overdraft for period January-April 2018.

Since 01 July 2017, the status change of the merger of subsidiary company UniCredit Leasing d.o.o. Sarajevo to the company Unicredit Bank d.d. Mostar has taken place. Accordingly, Unicredit Leasing d.o.o. Sarajevo has stopped existing as of 30 June 2017 and the data on the merged company are presented within the report on UniCredit Bank d.d. Mostar, starting from the report for July 2017.

* Interest rates in table for revolving loans and credit cards and their amounts refer to outstanding amounts.

IRF – initial rate fixation

... insufficient data to be published

The interest rate on the revolving loans and credit cards, includes data on credit cards with loan facility. Considering that credit cards with loan facility imply an interest free deferred payment (0% ir), they are not published.

No data for interest rates on loans in foreign currency on the basis of credit cards and overdrafts to non-financial corporations.

Notes:

From 1 July 2016, the required reserves rate applied by the CBBH to the base for calculation of required reserves is 10%. From 1 July 2016, the CBBH applies the new rates for the calculation of fees to the funds in the banks' reserves accounts : in the accounting period, the Central Bank does not charge a fee on the amount of required reserves in commercial banks' reserves accounts, and on the amount of excess reserves, the CBBH charges the fee at the rate equal to 50% of the rate applied to commercial banks' deposits (deposit facility rate) by the European Central Bank.

Since 01 May 2015, the Central Bank has calculated the compensation for a bank on the amount of the bank's funds in the reserve account with the Central Bank in the calculation period, as it follows:

- on the reserve requirement amount – the average of EONIA recorded in the same period on the market reduced by 10 basis points, or minimum zero,
- on the amount of the funds exceeding the reserve requirement – zero rate of compensation.

The zero rate of compensation on the reserve requirement is applied in case the average EONIA decreased by 10 basis points has a negative value.

From 1 September 2014, the remuneration rate has been calculated on the basis of the weighted average interest rate which was earned by the Central Bank of BH on the market in the same period on deposits invested up to a month ; and 70% is calculated on the amount of required reserve or minimum 0, while 90% of the mentioned rate is calculated on the amount of excess reserves or minimum 0.

From February 1st, 2011 the required reserves rate on deposits and borrowed assets with contracted term of maturity up to one year was declined from 14% to 10%, while the required reserves rate on deposits and borrowed assets with contracted term of maturity over one year is not changed. From August 1st 2011, the remuneration rate is calculated by the weighted average interest rate which were earned by the Central Bank on deposits invested up to a month in the same period; 70% of this rate is calculated on the amount of required reserves while 90% of the same rate is calculated on the amount of excess reserves.

From July 1st, 2010 remuneration rate on the amount of required reserves is changed and calculated as an average of interest rates, which were earned by the Central bank on overnight deposits in the same period, while remuneration rate on the amount of excess reserves is not changed.

From January 1st, 2009 the required reserves rate is 14% on deposits and borrowed assets with contracted term of maturity up to one year and 10% on deposits and borrowed assets with contracted term of maturity over one year. From April 1st, 2009 remuneration rate is calculated as:- On the amount of required reserves is 0,5%,- On the amount of excess reserves on the rate calculated as an average of interest rates, which were earned by the Central bank on deposits invested up to a month. From May 1st, 2009 the required reserves rate is 7% on deposits and borrowed assets with contracted term of maturity over one year.

From January 1st, 2008 required reserves rate was increased from 15% to 18%. From October 11th, 2008 required reserves rate was declined from 18% to 14%.

*The base for calculation of required reserves includes deposits and borrowed funds in domestic and other currency expressed in KM.

Notes:

The share of BH exports to the country in total BH exports for 2010 was used as a criterion for presenting the country of exports. Thus, all countries with higher share of exports than 4% of the total BH exports for 2010 are separately presented, while the other countries are presented in the column "Other Countries".

Until February 12, 2007, the data on exports to Serbia and Montenegro were presented as exports to Serbia, but since then Serbia and Montenegro have been presented separately.

Notes:

The share of BH imports from the country in total BH imports for 2010 was used as a criterion for presenting the country of imports. Thus, all countries with higher share of imports than 3% of total BH imports for 2010 are separately presented, while the other countries are presented in the column "Other Countries".

Until February 12, 2007, the data on imports from Serbia included imports from Montenegro as well, while since then imports from Montenegro has been included in the column "Other Countries".
